Advik was super helpful all the time during this course. He was constantly willing to stay after his section to cover more material in depth, and he really cared whether we were understanding what he was going over. Advik also made a conscious effort all semester long to adapt to suggestions from the students, and always had evaluations and input in each section, and would even poll the students at the beginning of section to see what topics we wanted to prioritize. In section I always felt comfortable asking questions because he was so respectful in explaining tough concepts even a second or third time, often describing things in different language or in different contexts to see what would finally click for different students. Also, he seemed super passionately interested in a lot of this stuff and would discuss applications he had seen of it, or opportunities for farther studies on different topics. In office hours he did a spectacular job helping me gain intuition behind certain concepts, and he was super patient, open, and compassionate during office hours to help students understand the material, not just complete the PSET. His section was also the best on teaching R code, in my opinion. He clearly put a ton of effort into his TF position and I am so thankful for that.

sometimes asked us questions we weren't prepared to answer, so it would've been helpful if he taught at a lower level and didn't make assumptions about our level of knowledge

REALLY GOOD SECTION LEADER

Evaluate the course overall.: **4 (very good)**
Evaluate your Section Leader overall.: **5 (excellent)**
Advik really cares about his students and their learning. He is so dedicated to his students, staying after to answer last-minute questions and leading review sessions before exams. He offers intuitive insights into formulas/concepts that help a lot. He is also super enthusiastic for the material, always a plus. However, this means that he can get carried away and we don't get to cover what we need to cover for section.
